

2025 Spring Honors Scholar Courses

DS-370-01WH Tech and Society

Mentzer, Kevin

This course explores the dynamic relationship between technology and society, examining how technological innovations shape and are shaped by cultural, economic, political, and ethical considerations. Students will critically assess the social impact of various technologies, including information technologies, biotechnology, automation, and artificial intelligence, with particular emphasis on ethical concerns, privacy, inequality, and the future of work.
