

*Guidelines for School Sponsored Events:*

*Participation in extracurricular activities such as academic field trips, cultural experiences, and intercollegiate athletics is viewed as an integral part of the total student experience at Nichols College. It is common practice that faculty afford students the academic accommodations necessary to fulfill their extracurricular commitments. These commitments include competition and travel schedules as well as those activities critical to the “game experiences”- i.e. necessary safety precautions such as visiting the athletic training staff prior to competition and adequate warm-up prior to competition.*

*An excused absence does NOT excuse the students from completing coursework missed during their absence. Prior to missing class, students should notify their instructors in writing and provide them with information regarding the departure date/time and discuss how missed work will be made up.*

*In-Class Presentation assignments cannot be made up, obviously, so no credit will be given for these in-class presentation assignments, if they are missed.*
