## UNDERGRADUATE STORM DELAY & CANCELLATION POLICY

### WINTER 2019 – 2020

It is the policy of Nichols College to NOT cancel classes unless a severe weather advisory exists.

In past years, if we needed to delay the opening of the College, all classes were then run on an abbreviated schedule.

**Beginning with this winter, if significant weather conditions warrant a delay in opening, the College will announce that 8:00 classes (and subsequent classes, if necessary) will be cancelled to allow travelers ample time to get to campus safely. The remainder of the day, classes will meet at regularly scheduled times.**

Should a delay or College closing occur, notifications will be made available as follows:

1. Students, faculty, and staff registered in the College's RAVE Mobile Safety emergency alert system will be notified directly.
2. Notifications may also be accessed on the stations listed below.
